

UCSC302P Practicals: Data visualization

SE1

07-09-2022

Visualize the data given in the attached xlsx file. The data is collected from 150 student volunteers.

To submit:

1. A working R script having the solution code. Every line in the code should be having necessary justification in the corresponding comments.
2. A snapshot in the form of pdf/png/jpeg/.. of the resulting visual encoding.

Honor code:

1. Do not take help from anyone.
2. You may use your textbook and/or any other reference material.
3. You should work individually to understand and implement the concepts. Honest submission fetches you useful feedback in terms of evaluation.
